Architect and CG artist producing high-end 3D architectural visualisation, backed by hands-on site and renovation experience across educational, residential and community projects. Comfortable moving between design intent and site execution — translating architectural concepts into images that sell the idea, and into details that survive construction.

01 EXPERIENCE

CG Artist — Visualizer 08/2025 – PRESENT
RBA Studios · Egypt
— Produce high-end 3D architectural visualisations and photorealistic renders using 3ds Max and Corona Renderer.
— Handle lighting, shading and post-production to deliver presentation-ready imagery for client pitches.
— Work directly with design teams to translate architectural concepts into visually compelling presentations.

Landscape Renovation Designer 07/2025 – 11/2025
Canadian International College · New Cairo Campus
— Developed and delivered the full renovation design for the campus landscape.
— Improved circulation, shading and gathering areas, upgrading both function and appearance of the outdoor spaces.
— Coordinated the design package through to on-site implementation.

Designer & Site Engineer 06/2024 – 09/2024
Indeco Egypt · Egypt
— Managed the renovation of a building at the Canadian International College, New Cairo Campus.
— Bridged architectural design and site execution, ensuring adherence to quality standards and project specifications.
— Resolved on-site design queries and issued clarifications to keep works on programme.

Architectural Intern — Site & Renovation 06/2023 – 08/2023
Rowad Modern Engineering · Egypt
— Supported site supervision and the renovation of an orphanage building.
— Gained hands-on exposure to modern engineering practice, methods of statement and quality checks.

Construction Intern 07/2022 – 08/2022
Emaar Misr · Mivida Compound
— Observed and assisted with daily construction operations and site management on a large-scale residential development.
